Markdown Self Cheat Sheet

Content

1. Headings

Heading 1

Heading 2

Heading 3

Heading 4

Heading 5

Heading 6

This is normal text in Markdown

2. Block Text

> This is block text in Markdown (Single)

> THIS IS ALSO A BLOCK TEXT
>
> We are mmaking notebook using Markdown file

3. New Paragraph or Line

Normally line break ..... does not work by simply going to next line

For line break we should give a empty line like

this so in preview it will be seen as line break.

Or we can also do this
to give a line break.

4. Face of Text

Bold

Italic

Bold and Italic

We can also use _ instead of * for changing the face of text, like:

Bold

Italic

Bold and Italic

5. Bullet Points/Lists

Bullets

- First
- Second
    - Second First (by giving one space)
    - Second Second
        - Second Second First (by giving two spaces)
- Third
- Forth

Numbers

1. First

2. Second

    1. Second First
    2. Second Second

3. Third (number auto corrected)

4. Forth

6. Line or Page Break

This is my first paragraph.

This my next paragraph...

- We can make line break with 3 _ or * or -

7. Links & Hyperlinks

> Link

https://github.com/drgasajid

> Hyperlink

This is my GitHub profile URL
> Link Hyperlink Key

For see my repo kindly visit my profile here

8. Image with URL

> From local directory

> From online link

Important Markdown Extentions

- Markdown All in One
- Markdown pdf
- Markdownlint
- Markdown Shortcuts
